EXPERIENCE

ClearSky Software Solutions Inc. | Contact: 705-264-9564   **March 2024**
Part time UX Designer
Make a user friendly UX interface for a construction website. This website is for construction companies to manage their appointment schedule, project schedule, client management and to manage client invoices.

ClearSky Software Solutions Inc. | Contact: 705-264-9564   **December 2024**
Part time Data Collection and Annotation Specialist
Collected data, examine, categorize, and labeled large datasets for use in Machine Learning and AI algorithms

Accenture Philippines   **January - April 2025**
On the Job Training
During my internship at Accenture, I completed structured learning on front-end and back-end development through Udemy courses. I gained foundational knowledge of web technologies such as HTML, CSS, JavaScript, React, Node.js, and databases. Through this experience, I developed a deeper understanding of software development best practices, UI/UX principles, API integration, and version control using Git.

Amihana Subdivision   **December 2024 - November 2025**
Capstone Project
As the team leader, UX designer, and backend developer for our capstone project, I led the development of a web-based portal for the Amihana Residence HOA to track their three financial statements: Balance Sheet, Cash Flow, and Income Statement. I designed the user experience to ensure a seamless and efficient interface for homeowners and administrators. On the backend, I implemented Firebase for real-time data management and authentication, while also contributing to the front-end using React.js. Throughout the project, I coordinated team tasks, managed timelines, and ensured the successful completion of the system.

EDUCATION

Bachelor of Science in Information Technology

Bulacan State University
2021 - 2025
Majors: Web and Mobile Development
